

**NORMAN**  
GLOBAL LOGISTICS

Specialists  
**in scrap metal shipment**

**trust us**  
to deliver

Our recycling logistics team are based in our Liverpool office and manage the supply chains of many of the UK's leading recyclers. Importing and exporting scrap metal to and from the UK and global destinations.

We specialise in the containerised shipment of all grades of scrap metal from the UK to destinations

our clients needs, which is particularly important when there are space pressures, or you are shipping to and from some of the more difficult-to-service markets.

Complete confidentiality, combined with the fastest most cost-effective services provide the foundation for the long-term relationships that we enjoy

## Make Norman Global Logistics your first choice for importing and exporting scrap metal

throughout the Far East and Indian Sub-Continent, dealing with import documentation requirements and arranging on-delivery to final destination.

By leveraging decades of trading with the major shipping lines we get the best rates and space agreements for

with many of the leading exporters of scrap metal from the UK.

Access to container loaders and bespoke container loading facilities mean that we can handle the largest tonnages of copper, brass, steel or mixed metal.
